projects supported by the Council was also brought out.

In his presidential address Dr.R.Srinivasan, Member Secretary, Tamilnadu State Council for Science and Technology, "The State Council started implementing the "Student Projects Scheme" from 1993 onwards. It has been started initially with 13 schemes. Every year students are supported to promote research aptitude of among students studying in Engineering under graduate, PG- professional courses and pure science courses. Under this scheme project proposal submitted by students (either individually or as a group) and selected by experts in various sectors such as Agriculture,

such as Agriculture, and certificate and

Social Science are provided with partial financial support of maximum Rs.10,000/-.

From the year 2017-18, grant for the student projects are increased from Rs.20 lakh to 40 lakh by the Government of Tamil Nadu. From the current year onwards, every year the Council will support 500 projects.

Through this scheme, the research skills of the students are developed and their science related dreams are brought out. They should be top in research to find solutions for societal problems. Their career should be developed and through that the production and economy of the country should also be upgraded.
